Title VI Equity Analysis

A subrecipient planning to acquire land to construct certain types of facilities must not discriminate on the basis of race, color, or national origin, against persons who may, as a result of the construction, be displaced from their homes or businesses. "Facilities" in this context does not include transit stations or bus shelters, but instead refers to storage facilities, maintenance facilities, and operation centers.

There are many steps involved in the planning process prior to the actual construction of a facility. It is during these planning phases that attention needs to be paid to equity and non-discrimination through equity analysis. The Title VI Equity Analysis must be done before the selection of the preferred site.

Note: Even if facility construction is financed with non-FTA funds, if the subrecipient organization receives any FTA dollars, it must comply with this requirement.

The TYPE AGENCY NAME has no current or anticipated plans to develop new transit facilities covered by these requirements. No facilities covered by these requirements were developed since DATE SINCE LAST FACILITY WAS BUILT. ***Please delete this section if it does not apply to your agency. If it does, please delete the below text in this section.**

A. Introduction

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Per 49 CFR 21.9(b)(3), recipients may not select the site or location of facilities with the purpose or effect of excluding persons from, denying the benefits of, or subjecting them to discrimination on the basis of race, color, or national origin. Additionally, the location of projects requiring land acquisition and the displacement of persons from their residences and business may not be determined on the basis of race, color, or national origin.

This document is an analysis of TYPE YOUR AGENCY/TRANSIT PROVIDER NAME HERE's planned TYPE PROPOSED MONTH/YEAR OF AGENCY COMPLETION TYPE AGENCY HERE (Facility Construction Only)

B. Background

DESCRIBE THE AGENCY(why it was proposed, the projected benefits of the project, etc.)

C. Analysis

For facilities covered by this provision, recipients are required to:

- 1) Complete a Title VI equity analysis during the planning state with regard to where an agency is located to ensure the location is selected without regard to race, color, or national origin, and engage in outreach to persons potentially impacted by siting of facilities. The Title VI equity analysis must compare the equity impacts of various siting alternatives, and the analysis must occur before the selection of the preferred site.

- 2) Give attention to other facilities with similar impacts in the area to determine if any cumulative adverse impacts might result. Analysis should be done at the Census tract or block group level where appropriate to ensure proper analysis of localized impacts.
- 3) Provide substantial legitimate justification for locating an agency in a location that will result in a disparate impact on the basis of race, color, or national origin, and show that there are no alternative locations that would have a less disparate impact on the basis of race, color, or national origin. In order to show that both tests have been met, the recipient must consider and analyze alternatives to determine whether those alternatives would have less of a disparate impact on the basis of race, color, or national origin, and then implement the least discriminatory alternative.

Fixed Route Transit Provider Analysis

Note: if this section does not apply to you, please delete it and submit your Title VI Plan without this section.

Fixed route: Public transit service (other than by aircraft) provided on a repetitive, fixed-schedule basis along a specific route, with vehicles stopping to pick up passengers.

A subrecipient providing fixed route service, as defined above, must determine the distribution of transit amenities or the vehicle assignments for each mode in a non-discriminatory manner. The subrecipient must develop policies to ensure service is not distributed on the basis of race, color, or national origin.

Effective practices to fulfill the Service Standards requirements include developing written policies covering each of the following service indicators: **[INSTRUCTIONS](can be expressed in writing or in table format – see Circular Appendix G & H pp. 87-91)**

1) Vehicle Load for Each Mode

A ratio of passengers to the total number of seats (peak and off-peak times). If you operate multiple modes of transit, then you must describe the specific vehicle load standards for peak and off-peak times for each mode of fixed route transit service.

2) Vehicle Headway for Each Mode

This is the amount of time between two vehicles traveling in the same direction on a given or a combination of lines (shorter = more frequent). Please do this for peak and off-peak times.

3) On Time Performance for Each Mode

This is a measure of runs completed as scheduled. Please be sure to define what "on time" means (i.e. 0-5 minutes late is still on time).

4) Service Availability for Each Mode

Effective qualitative practices to fulfill the Service Policy requirements include developing written policies covering each of the following service indicators:

1) Transit amenities for each mode

These are items of comfort, convenience and safety available to the general riding public (i.e. seating, shelters, canopies, signs, maps, schedules, escalators, elevators, and waste receptacles).

Please describe how these amenities are distributed to ensure all riders have equal access.

2) *Vehicle assignments for each mode*

The process for placing transit vehicles into service depots and on routes throughout the transit provider's system.
